4 Kräftschluss - Vorspannung

5 Stützstreben

6 Aushub - Deckelbauweise

7 Abdichtung - Wanne

„Das Schwierige liegt darin, die Seele des Dichters mit dem Wissen und der Erfahrung des Technikers in Einklang zu bringen. Noch schwieriger ist es, die Umwelt zum Verständnis der Werte zu erziehen, welche aus der Verbindung von Dichter und Techniker entstehen können.“

Pier Luigi Nervi, 1934
